Westchester Photographic Society Newsletter

Spring has finally arrived. Green has returned to our world as the trees, bushes, ferns and grasses have new crops of leaves, fronds and blades. The birds have nested. New life is breaking our all over including at WPS.

Your new Board had its first meeting on May 4th and we're off to an exciting start. First, let me thank all of the members who work very hard in the past couple of months to organize and carry out the elections for the new Board. Thanks to Charlie and his election committee, Jun, Ann, Bob and Jonathan for creating, distributing and counting the ballots. Thanks to Janet, Marty, Jane and Jerry for the refreshments. Thanks to Robert Baron for posting all the elections articles in the newsletters. Thanks to all the candidates for agreeing to run for the Board and finally thanks to all the members who came to the Annual Members Meeting and voted for the Board.

At the May Board Meeting we elected the officers and assigned areas of responsibility to each Board director. In addition to the jobs that are done by Board members, we rely on our member volunteers to help with a variety of jobs that contribute to the continued smooth operation of WPS. We have again been fortunate in finding enough volunteers to do these jobs.

The new Board is hard at work preparing the program schedule for the end of summer as well as fall. We are also preparing an exciting Field Trip schedule. So far we have added ten field trips to our schedule for the 2007-08 season. If you have any suggestions for new field trips or would like to lead a trip please email Ron, our trip coordinator, Ron@wpsphoto.org.

Throughout the remainder of spring and summer, the Board will be working on changes for next season's competitions, our awards and our annual dinner.

As always please send your suggestions, comments and complaints to Dick@wpsphoto.org
