STOP THE GIVE-AWAY OF PUBLIC PARK LAND TO A PRIVATE RESTAURANT

TAKE BACK UNION SQUARE PARK FOR CHILDREN AND THE PUBLIC!

I support the renovation of the north end of Union Square Park as a project that should improve and expand the public use of this small National Historic Landmark Park. I support the renovation of the pavilion as a public structure that provides a variety of year-round public activities for children, families and the community. **I strongly oppose the current Union Square Partnership's costly plan for exclusive use of the pavilion and the terrace as a private, year-round restaurant.** Therefore, I urge the City to oppose the give-away of precious public land to a private restaurant and to provide, instead, the maximum amount of children's play space.
