ADELPHI CHAMBER ORCHESTRA

The Adelphi Chamber Orchestra is preparing for its 56th season of concert performances. Music and guest artists have already been selected and the process of funding these performances is ahead of us.

The "Annual Campaign for the Orchestra" will run June through October. As in past years, we are asking businesses to contribute to the Orchestra's operating budget by making a cash or by advertising with the orchestra.

Some businesses may choose to do both.

This year's 56th Concert Season is filled with incredible musical performances and inspiring community outreach by the Orchestra. Yet, none of the great work done by our conductor and musicians year after year is possible without ongoing financial support from the business community.

The ACO is a vibrant organization

presenting up to nine concert events per season, attracting 200+ single-concert attendees. Programming includes classical and small chamber concerts, as well as educational events.

Admission is free to all ACO concerts!

As a non-profit orchestra, we rely on grants from government and foundation sources, on corporate sponsorship and contributions, and on private donations.

We thank you sincerely for your support.

Our Mission: To foster good music and by uniting local qualified musicians with our diverse community. We achieve our goal through quality chamber musical performances of a broad spectrum people of all ages, backgrounds, and economic levels.

Yuri Vodovoz Music Director
