

HUDSON REPRO PARTS WEBPAGE

We're back "on the air" in 2008, thanks to the generous help of Jim Poe, Hudsonite from Virginia who stepped forward to volunteer his expertise in the internet. Thanks, Jim!

It's been several months since the Repro Parts list has been on the internet, and a number of things may have changed since before. Some old parts may be out of production, others aren't listed yet! So please bear with us and send all "change" information to Jon Battle at Xterraplane@verizon.net .
Remove the X before sending. Thanks!

***Visit the Hudson-Essex-Terraplane website at
<http://www.hudsonclub.org/> !***

LIST OF REPRODUCED PARTS AVAILABLE FOR HUDSONS

Revision 4 – 3/14/07 (last revision, 1/5/06)

Please note the date to be sure your list is current. This list only covers parts which are specifically being reproduced for Hudsons. It is not intended as an interchange list for common items that fit many years or makes of car. (Some exceptions may be made for very scarce items which are made for one brand of car but are discovered to fit Hudsons.) I do not list companies that rebuild items (such as steering wheels) unless the items are kept in stock. In general, the items here are not “one-offs” or new-old-stock; they will be available into the foreseeable future.

As much as possible, I try to offer a separate listing for each item, depending upon its applicability to year and model. If one item fits only a particular year or series of Hudson, it is given a separate listing.

Reading the table: Items which are stocked are listed with an “A”. Items which are made up on a per-order basis are listed with a “D” (on-demand); these could take from a few days to a few weeks to prepare. Where the customer must make some modification (like plating a bronze casting, for example) this is listed in the description. “NA” means the item had no separate Hudson part number, originally. A key to the names on the Vendor Code column is listed at the bottom – as a courtesy, **I have added an “X” to the e-mail address of individuals** (not companies) to spare them from the Grim E-Mail Reapers; **delete the X** before sending! No prices are shown since updating them would be a very complicated process.

Some Hudson parts suppliers – like K-Gap, Dale Cooper, Kostansek / Cheney and others -- have huge inventory lists. I will not attempt to catalog their parts here, at this time, but will attempt to add them later.

A listing here does not constitute an endorsement of a product. You are encouraged to contact the seller and ask questions. This list is maintained by an individual and is not an official project of the Hudson-Essex-Terraplane Club, Inc. The author is not responsible for incorrect information.

Please advise me of any changes or additions, at XTerraplane@verizon.net , delete the X before sending.

Hr=Hornet, C=Commodore, T=Terraplane, P=Pacemaker, W=Wasp, SW=Super Wasp, HS=Hornet Special, E=Essex, H=Hudson, Met=Metropolitan

NOTE: I DO NOT SELL PARTS!

ELECTRICAL AND LIGHTS
