Who are we?

Parents– We are the parents of children receiving special education services. Learning together how to effectively and collaboratively advocate for our children.

Teachers– We are Warwick general education and special education teachers dedicated to building trusting collaborative relationships with families, administrators and community members

Warwick Special Education Administrators– We are the Director and Assistant Directors of Special Education in Warwick. Every month an administrator shares updates and information on the Special Education initiatives taking place in our schools.

Warwick School Committee Members–We are your elected School Committee members working to build a network where we can provide parents, taxpayers, teachers, school personnel and citizens of Warwick a forum to voice their opinion and provide suggestions.

We give strength to our individual concerns about special education by acting as a group.

What do we do?

- We inform parents about special education issues and encourage their support.
- We disseminate information on state and federal education issues.
- We sponsor a variety of training courses in conjunction with several agencies.
- We provide a forum for parent information and support.
- We report to the School Committee and attend their meetings.
- We act as a local resource for families with concerns about their child's educational needs.

When and where do we meet?

7pm, Second Wednesday of each month

(excluding July and August)

Warwick School Administration Building

34 Warwick Lake Avenue

(go in the door on the left side of the building)
