New Hampshire Audubon is an independent statewide membership organization whose mission is to protect New Hampshire's natural environment for wildlife and for people.

We operate five nature centers throughout the state that provide educational programs for children and adults. We are also involved in statewide conservation research and wildlife monitoring projects. We protect thousands of acres of wildlife habitat and advocate for sound public policy on environmental issues.

For information on New Hampshire Audubon, including membership, volunteering, programs, and publications, call 224-9909 or go to www.nhaudubon.org.

Please help us do even more by adding your voice and support to our vital programs. Your contribution will help create a natural legacy that lasts for generations to come.

Thanks
