

## ***Internet Tools to Assist with your Project/Product/Presentation***

### **Google Products**

#### *Blog*

<http://www.blogger.com/home>

Create a blog including photographs, links, etc.

#### *Pages*

<http://pages.google.com/>

Create your own webpage.

#### *Sites*

<http://sites.google.com/>

Create website and wikis.

#### *Sketch Up*

<http://sketchup.google.com/>

A sketching tool to create 3D models of anything.

#### *Translate*

<http://translate.google.com/>

Translate pages into other languages.

#### *Docs*

<http://docs.google.com/>

Create documents, spreadsheets, and presentations online that you can access from anywhere and share and collaborate on with anyone.

### **Wordle**

<http://www.wordle.net/>

Generates “word clouds” from text that you provide.

### **Tiny URL**

<http://www.tiny.cc/>

Takes long URLs and shrinks them to fit in blogs, tweets, etc.
