I would love nothing more than to mentor another student for you next year. Please feel free to call on me if the opportunity arises.

I had a fabulous time mentoring this year and would be happy to be called upon again; however, I would like a break for next year.

Although this was an amazing experience, I can't see myself doing it again. Thank you.

I have a colleague who would be very interested in mentoring a Gifted and Talented student. Below is his/her name and contact information.
