

Certificates and Documents

1. Where in the Federal Aviation Regulations can regulations governing aircraft maintenance be found?
2. Where in the Federal Aviation Regulations can regulations governing pilot certification be found?
3. Where in the Federal Aviation Regulations can regulations governing general operating rule be found?
4. Do the Federal Aviation regulations require that every flight be logged?
5. What flights must be logged in order to fly a glider as Pilot In Command?
6. When does a Flight Review expire?
7. What flights must be logged in order to take an FAA Private Pilot Glider Practical Test?
8. What are the minimum requirements for a glider pilot Flight Review?
9. What information should be logged when making a pilot logbook entry?
10. Must your pilot logbook be in your possession every time you fly as Pilot In Command?
11. What documents must be in the glider to be legal for flight?
12. When does an Airworthiness Certificate expire?
13. What information is on an Aircraft Registration Certificate?
14. What are acceptable ways the Operating Limits can be aboard a glider?
15. What are the required operating limits of a glider?
16. Where is authoritative information regarding the operating limits of a glider found?
17. What are acceptable ways for Weight and Balance data to be aboard a glider?
18. Why is it unsafe to operate a glider with the center of gravity out of limits?

19. What two conditions must be satisfied when solving weight and balance problems?
20. What hazards exist with the center of gravity out of forward limits?
21. What hazards exist with the center of gravity out of aft limits?
22. Must your Private Pilot Glider license be in your possession every time you fly as Pilot In Command?
23. If you move to a new address, must you notify the FAA?
24. How must you notify the FAA of an address change?
25. What is the maximum time allowed before notifying the FAA of an address change?
26. When does your Private Pilot Glider License expire?
27. Can a Private Pilot fly for compensation or hire?
28. How can a Private Pilot Glider share in the costs of a flight?
29. What are the medical requirements for a Private Pilot Glider?
30. Is a medical certificate required for a Private Pilot Glider to fly as pilot in command?
31. What inspections must be performed on gliders that are not used for compensation or hire?
32. What inspections must be performed on gliders that are used for compensation or hire?
33. Who can perform an Annual Inspection?
34. Must required aircraft inspections be logged?
35. Who is responsible for determining if a glider is in an airworthy condition?
36. Who is responsible for maintaining a glider in an airworthy condition?
37. What is a minor repair?

38. What is Preventive Maintenance?

39. Can a pilot perform minor repairs or preventive maintenance?

40. What is a major repair?

41. Who is authorized to perform a major repair?
