

# VISUAL GENERAL EFFECT

*Visual General Effect is the utilization of all elements to bring about maximum effectiveness of the visual presentation. Evaluate each caption below based on the criteria reference. Understand that we evaluate what is being performed at the same time we are evaluating how it is being performed. Since we judge achievement, we must understand that the construction and content of a program, in combination with the performance level which is being demonstrated, will determine the achievement level. It is impossible to consider one of these elements without considering the other.*
