

What is a Mansfield Helmet Wall Graphic

A much larger than life, limited edition, high resolution, self-adhesive vinyl image that is die-cut to enhance it's 3-dimensional appearance. Perfect to show your school spirit in your den, recreation room, home theater area, or prep star's bedroom. Printed on a patented, removable vinyl that will cling to just about any smooth, painted wall. You can even use the extra graphics to place on your window while tailgating.

What Comes With my Mansfield Helmet Wall Graphic

Each Mansfield Helmet Wall Graphic includes one Extra-Large sized, self-adhesive, pre-cut wall graphic, and, Touchdown!!!, two additional die cut team wall graphics!

How Large are Mansfield Helmet Wall Graphics

A 40 yard touchdown pass to win in overtime! Large. Your helmet will measure over 48 inches wide.

Please be careful when selecting an area to display your Mansfield Helmet Wall Graphic. The area needs to be large, the surface must be smooth, and it must be clean. Wall clings should not be applied to textured walls of any kind. Did we mention the area needs to be large?

What Surface is best for my Mansfield Helmet Wall Graphic

Mansfield Helmet Wall Graphics are an amazing product, but care must be used in finding the perfect area. The area needs to be large, the surface must be smooth, and it must be clean and dry. Wall clings should not be applied to textured walls of any kind. If you try and place your Mansfield Helmet Wall Graphic on any other surface, you will be not be happy with the results. Did we mention the area needs to be large?

Ideal Surfaces for Mansfield Helmet Installation

- * Indoors Only
- * Smooth Surface
- * Clean Surface

Note: No soap or cleaning product should be used to clean the surface as they can leave a film or residue on the wall that will diminish the adhesive qualities of your Mansfield Helmet Wall Graphic.

Note: Freshly painted surfaces must be allowed to dry 4-5 weeks before installing your Mansfield Helmet to ensure the paint has completely cured.

Not Recommended Surfaces

- * No Textured Walls
- * No Textured Surfaces of any kind (textured wallpaper, unpainted drywall, unfinished wood surfaces, block or brick walls)
- * No Painted Vehicle Surface

Note for tailgating: Mansfield Helmet should not be installed on the painted surface of any vehicle. A vehicles window surface is safe for installation, but the vehicle should not be moved once it is installed.

Notes About Cleaning Walls or Newly Pained Surfaces

* Freshly painted surfaces must be allowed to dry 4-5 weeks before installing your Mansfield Helmet to ensure the paint has completely cured.

* No soap or cleaning product should be used to clean the surface as they can leave a film or residue on the wall that will diminish the adhesive qualities of your Mansfield Helmet Wall Graphic. Time Saver: If you must wash with water, we recommend washing the wall before you ever leave the house or before you visit us on the web, but if you can't wait any longer to make a play, running a fan on the selected area can cut your waiting time down to a couple hours.

How do I put up such an Extra Large Graphic

You don't. It takes a team to make a play work, and a little preparation to handle the installation. Of course by "team" we mean two people.
