# Words From The Hopi People

**There is a river flowing very fast  
It is so swift there are those who will be afraid  
They will try to hold onto the shore  
They will feel they are being torn apart  
And will suffer greatly  
Know that the river has a destination  
The elders say we must let go of the shore  
Push off into the middle of the river  
And I say see who is in there with you and celebrate  
At this time in history we are to take nothing personally  
Least of all ourselves  
For the moment we do our spiritual growth comes to a halt  
The time of the lone wolf is over  
Gather yourselves together, as we are tonight  
Banish the word struggle from your attitude and vocabulary  
All that we do now must be done in a sacred manner  
And in celebration  
We are the ones we are waiting for  
Ahoy!**

# Calendars and Consciousness

## Consciousness

What you pay attention to you become conscious of.

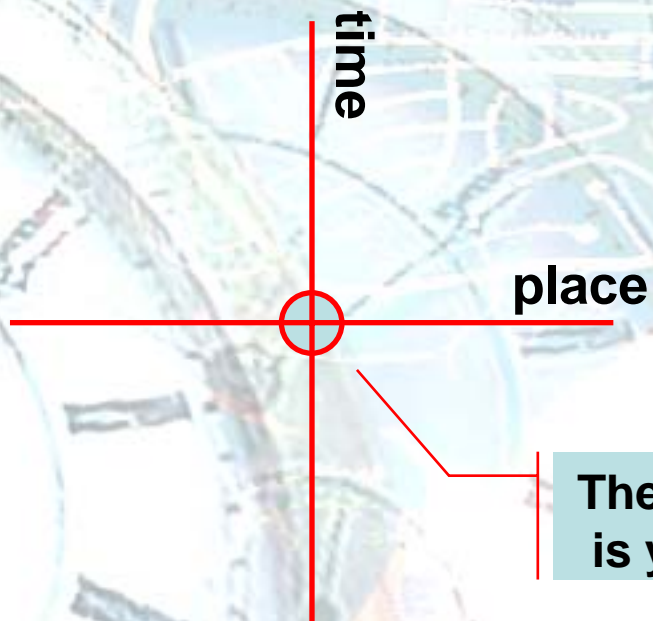

The definition of consciousness is the awareness of being aware.

## Calendars

Calendars are the absolute centre of any civilisations consciousness.

Everything that happens and how it is perceived is in relation to the calendar.

Consciousness always has an orientation.  
In current civilisations it is in time and place.

The centre of time and place  
is your viewpoint of reality.

**Things to note:**

Time is a consideration - it is flexible.

Time is an agreement between people - it is an abstract idea, and the agreement is within a calendar.

Place is an agreement between people - every place has its own consciousness.

**Therefore:**

The centre point of time and place is where your consciousness is.

Your consciousness is your viewpoint and your viewpoint is always based on a time and place.

# The Gregorian Calendar

- ⇒ Started in 1582 by Pope Gregory
- ⇒ Based on the Sun and Earth relationship, and the Earth orbits around the Sun every  $365 \frac{1}{4}$  days.
- ⇒ Our whole consciousness is focused on the one body going around another.
- ⇒ Our whole civilisation's consciousness is focused on the physical and nothing else.
- ⇒ All business is run on this calendar.
- ⇒ The first year of the Gregorian Calendar was call the '1<sup>st</sup> Year Of Our Lord', and this prefixed any year date. Now there is almost no spirituality left anymore.
- ⇒ Therefore our whole calendar is about the physical.

# The Mayan Calendars

The Maya had as many as 18 calendars, but 3 have been the focus of modern Mayan Calendar researchers.

## Tzolkin

> 260 days.

> called the 'Count of Days'.

> was the personal or astrological calendar

first name of a person was the name of the day on the calendar.

> made up of:

13 Intentions of Creation (numbers) and 20 Aspects of Creation (day-signs) ( $13 \times 20 = 260$ )

## Tun

> 360 days.

> was the divine or prophetic calendar.

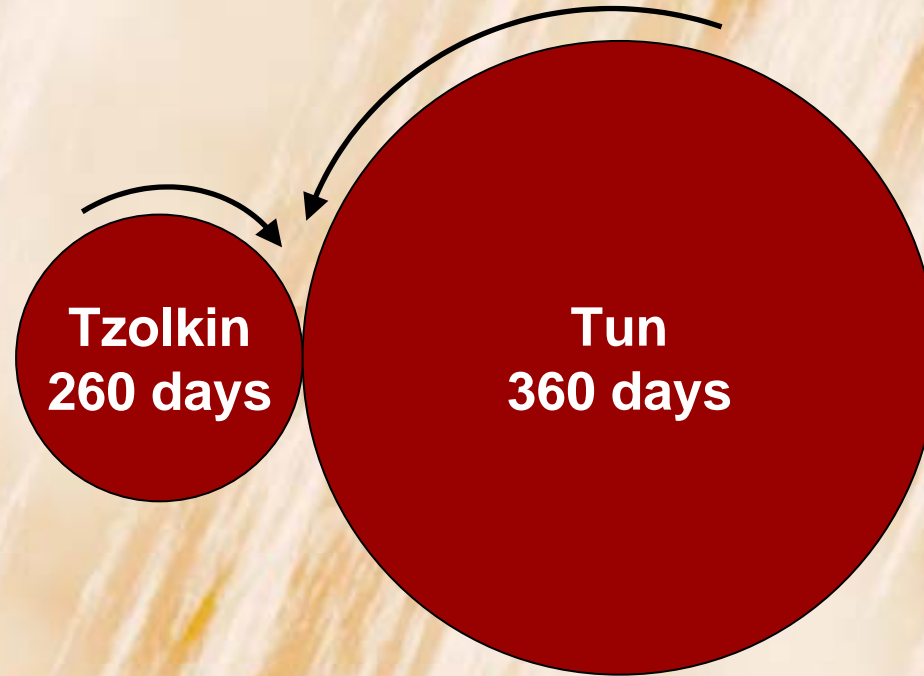

## Haab

> 365  $\frac{1}{4}$  days.

> Nothing was ever recorded using this calendar; it was only used for the collection of taxes and measuring the agricultural seasons, when to plant, harvest etc.

# The Mayan Calendars

The Tzolkin revolves and turns the Tun.

Therefore:

- The Tzolkin imparts its meaning to the Tun.
- Every 52 revolutions of the Tun every possible Aspect and Intention of creation has been experienced.

# Part 2

# The 5th Day and Night of each Cycle of Creation

## 1<sup>st</sup> cycle

- 5<sup>th</sup> day – The Sun and Planet Earth formed in the solar system (the theory of a living Gaia would naturally begin here).
- 5<sup>th</sup> night – meteor bombardment.

## 2<sup>nd</sup> cycle

- 5<sup>th</sup> day – (315 million years ago day started) life moves out of the oceans on the land (biggest explosion of life in natural history).
- 5<sup>th</sup> night – 97% of life eradicated from the land.

## 3<sup>rd</sup> cycle

- 5<sup>th</sup> day – natural historians think true colour vision started.
- 5<sup>th</sup> night – unknown.

## 4<sup>th</sup> cycle

- 5<sup>th</sup> day – (800,000 years ago) fire was discovered (all over the world within about 2 thousand years peoples from different continents were discovering fire independently of each other).
- 5<sup>th</sup> night – (640,000 years ago) Ice age starts.

## 5<sup>th</sup> cycle

- 5<sup>th</sup> day – (40,000 years ago) man creates art (for the first time mankind thinks in abstracts.)
- 5<sup>th</sup> night – (32,000 years ago) Neanderthal Man goes extinct.

## 6<sup>th</sup> cycle

- 5<sup>th</sup> day – 40 AD Paul has a passion about Jesus Christ proclaiming people can talk straight to God and sanctified priest are no longer needed.
- 5<sup>th</sup> night – 411 AD Rome fell and the beginning of the end of the Roman Empire.

## 7<sup>th</sup> cycle

- 5<sup>th</sup> day – 1913 publication of  $E=MC^2$  (this is the blueprint of our reality) Hubble (1924) discovers we live in an infinite universe (in an infinite universe nothing is impossible).
- 5<sup>th</sup> night – 1932 Hitler rises to power and starts the process of events for WW2, 1<sup>st</sup> atomic bomb detonated.

# Examples of Evolutions Through the Cycles

## 1<sup>st</sup> Day

– Y2K (meaning everything can happen so be prepared) (Industrial Revolution 1755)

## 1<sup>st</sup> Night

– 9-11 (proving what was thought impossible happened) (1<sup>st</sup> May 1776 Illuminati started)

## 2<sup>nd</sup> Day

– display of polarity [patriot versus terrorist/good versus bad]

## 2<sup>nd</sup> Night

– French/Indian war, USA invades Afghanistan and Iraq

## 3<sup>rd</sup> Day

– massive out pouring of life: homo erectus and Neanderthal man appeared, foundations of Greece laid down, telegraph invented, Darwin published 'Origin of Species' (major truths come forward/out)

## 4<sup>th</sup> Day

– invention of the spine, 1<sup>st</sup> Olympic games, Homer writes the 'Odyssey', Telephone developed (developments of new systems)

## 4<sup>th</sup> Night

– end of Greek civilisation

## 5<sup>th</sup> Day

– animals move to land from the sea, colour vision develops, control of fire by hominid species, art invented, Jesus Christ appears and says that we are divine and can speak straight to God,  $E=MC^2$ , radio transmissions started, Hubble discovered universe is infinite (new break throughs in consciousness)

## 5<sup>th</sup> Night

– WW2, atomic bombs, end of Japanese empire, European countries work to eradicate war in Europe (death of old consciousness) (Council of Nicea starts the Roman Catholic Church)

## 6<sup>th</sup> Day

– Renaissance period in Europe, King Arthur in England, golden age of Mayan and Anasazi civilisations

# World Economy During the Planetary Cycle

**1<sup>st</sup> Day – 1776 gold back continental currency**

**1<sup>st</sup> Night – 1772 British and Dutch economies collapse**

**2<sup>nd</sup> Day – 1794 US mint established and issue gold and silver backed currency**

**2<sup>nd</sup> Night – 1819 British and US economic collapses**

**3<sup>rd</sup> Day – general well being and economic improvements globally**

**3<sup>rd</sup> Night – 1857 US and Europe economic collapses, 1876 German economic collapse**

**4<sup>th</sup> Day – US government mints new coins (investment from Europe in rail roads)**

**4<sup>th</sup> Night – 1893 US depression, 1903 French and India economic failings**

**5<sup>th</sup> Day – 1913 US Federal Reserve started (great conscious opening for the money/power brokers)**

**5<sup>th</sup> Night – 1931-33 Great Depression**

**6<sup>th</sup> Day – US pledges to world to pay every nations' debt in gold involved in WW2 (US went off gold standard in 1973)**

**6<sup>th</sup> Night – 1973 US went off gold standard and pulled back agreement. US pays only in Federal Reserve notes, 1973 runaway inflation and oil companies value rose by 10%**

**7<sup>th</sup> Day – 1992 technology bubble in the stock market**

# The Days and Nights of the Galactic Consciousness

**1<sup>st</sup> Day** – seeds of consciousness planted

**1<sup>st</sup> Night** – consciousness is activated

**2<sup>nd</sup> Day** – polarity displayed

**2<sup>nd</sup> Night** – old and new consciousness collide

**3<sup>rd</sup> Day** – truth rolls out

**3<sup>rd</sup> Night** – adjustments to the truth

**4<sup>th</sup> Day** – new foundations of human relations

**4<sup>th</sup> Night** – ethical procedures implemented

**5<sup>th</sup> Day** – we meet our galactic neighbours

**5<sup>th</sup> Night** – end of manufactured lack

**6<sup>th</sup> Day** – consciousness surpasses technology

**6<sup>th</sup> Night** – bliss, we need the practice

**7<sup>th</sup> Day** – we evolve to conscious co-creation of existence and experience

# When Do We Reach The End - 2011 or 2012?

## EVOLUTION IS NOT ABOUT DATES – IT IS ABOUT CONSCIOUSNESS

This concept is backed up by so many other researchers, scientists, humanitarians and peoples from around the world who have no idea about 2011 or 2012, yet they all recognise that people and their consciousness is changing. There is a global, synchronistic and powerful shift sweeping through people and they are opening up to the possibilities of change, in bigger, more pronounced, faster ways than ever before. The Light Workers are coming out. The men of power are no longer hiding in the shadows. Nature is changing and so are we.

### ➤ The important bit is about our 'oneness':

- > The four parts making the whole,
- > four races of man as a single species, (red, white, black and yellow)
- > four types of people as an individual (young, old, female and male)
- > four forces making the one (electromagnetic, gravitational, strong and weak nuclear forces),
- > four direction making the centre (east, west, north and south)

# Part 3

# Knowledge is Power

According to the Oxford Advanced Learners Dictionary:

**knowledge:**

- 1) understanding of or information possessed about a subject
- 2) awareness.

**power (CONTROL)**

- 1) ability to control people and events.

**power (STRENGTH)**

strength

**Intelligence and Wisdom:** intelligence is knowing what rain is, wisdom is knowing how to use an umbrella.

There are good and bad things to knowledge and power:

## **Good things**

-there are more changes in time = there are more possibilities that can occur = more outcomes there are.

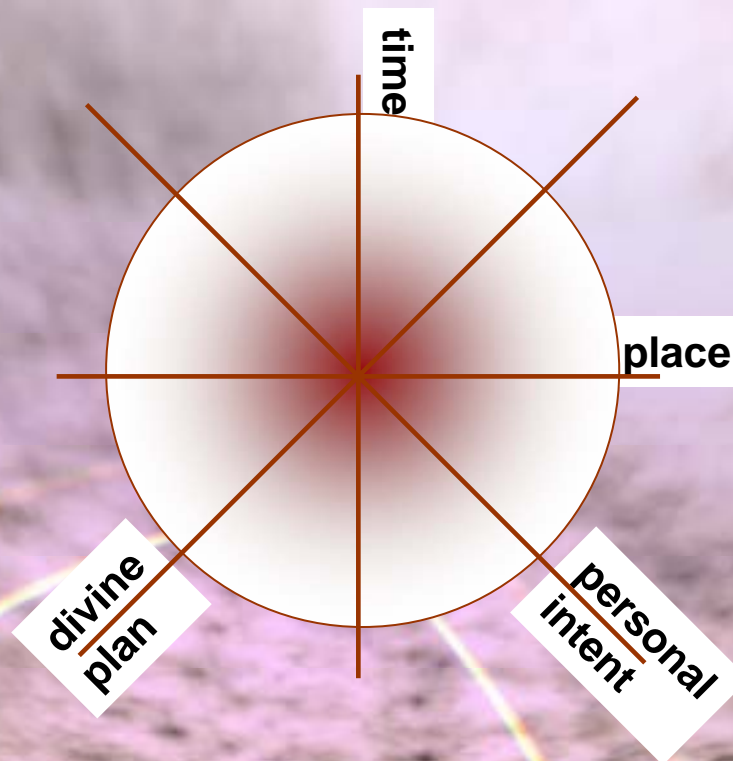

## **Bad things**

-Stress - The mind's inability to deal with the stresses of change results in psychological damage.

# Knowledge is Power

Maya had a 3<sup>rd</sup> orientation to their existence called Personal Intent

And a 4<sup>th</sup> orientation called Divine Plan

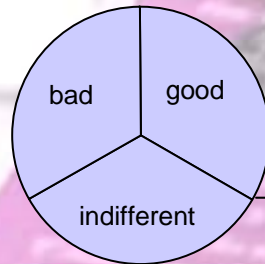

This Mayan symbol is called: Eight Division Sky Place

Conscious is orientated by time, place, your own personal intent for being there at that time and your intuition that you were tied up in something much bigger than yourself.

# The Options of Past, Present and Future

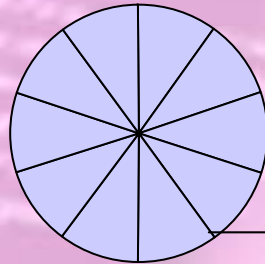

In the past:

goal

Less things happening and options to take to get to your goal.

In the present:

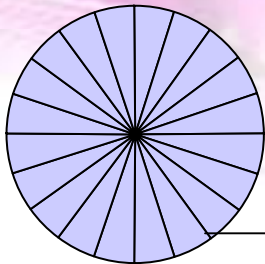

goal

More things happening and more options to take to get to your goal.

Time to get to your goal is reduced.

In the future:

goal

Even more possibilities and more will become available with every moment and the acceleration of development constantly increases.

**At the end of the calendar absolutely everything happens/all exists at the same time with no limit on time.  
The only limit is imagination by which time imagination is as infinite as the universe.**

# **The Coming Together of Modern Science and Ancient Wisdom and Mysticism**

## **The Last Days**

The Mayans called the last part of the calendar (the last 13 year period to 2012 end of the long count) the Age of Revealing (when the mask comes down). The bible reiterates this in the story of the apocalypse (revelation = revealing) (apocalypse means covering in Greek)

## **As Above So Below**

Connections between the microcosm and the macrocosm (psyche and the world)  
Dr George W Crille of the Cleveland Laboratories announced that he had discovered at the heart of every living organism a tiny molecule of energy, all aglow, with temperatures ranging from 3000 to 6000 degrees of heat, which he called “radiogens” or “heat points” precisely akin to the radiant energy of solar matter. He affirmed, that a tiny particle of the sun’s power and radiance was lodged within the heart of every organic unit.

# The Coming Together of Modern Science and Ancient Wisdom and Mysticism

Deepak Chopra goes further: Photons come out of nowhere, they cannot be stored, they can barely be pinned down in time, and they have no home in space whatsoever. That is light occupies no volume and has no mass. The similarity between a thought and a photon is very deep. Both are born in the region beyond space and time where nature controls all processes in that void which is full of creative intelligence.

In the early 1980's thanks to the development of a sophisticated measurement device, a team of scientists demonstrated that the cells of all living beings emit photons at a rate of up to approximately 100 units per second and per square centimetre of surface area. They also showed that DNA was the source of this photon emission.

# **The Coming Together of Modern Science and Ancient Wisdom and Mysticism**

**The Mayan Calendar is the only calendar known to be based on Galactic Cycles. The Mayans claimed they created this calendar in order to monitor the light coming from the centre of the galaxy and how it affected our DNA.**

**We now know through the work of Fritz Popp that DNA not only absorbs lights but also emits light. DNA also appears to be the bridge between our physical and etheric bodies.**

**There is a harmonic relationship between the Earth and our mind/body. Earth's low frequency isoelectric field, the magnetic field of the Earth and the electrostatic field that emerges from our bodies are closely interwoven. Our internal rhythms, affecting our balance REM patterns and mental focus.**

**For epochs, Schumann's resonance have provided the orchestrating pulse for the life on this planet – our planetary heartbeat, which sets the tempo for health and well-being. Liquid crystals (DNA, brain ventricles and cellular structures) in the human body may operate as antenna for the detecting decoding such global and local ELF signals.**

# Age of Revealing and the Church Fathers

The Age of Revealing is a return to selfhood, devoid of all that is false and of denial. Even the church has been saying this for thousands of years:

- ⇒ **Origin ( the Church Fathers 3<sup>rd</sup> century AD) “You yourself are even another little world and within you the sun and the moon and the stars.”**
- ⇒ **Corinthians: “You are the temple of God. For the temple of God is holy, which temple you are.”**
- ⇒ **Acts: “The most high dwells not in temples made with hands.”**
- ⇒ **Gospel of John: “The works I do, you do, and greater.”**
- ⇒ **Gospel of Thomas: “When you know yourselves, then you will be known, and you will know that you are the sons of the living Father. But if you do not know yourselves then you are in poverty, and you are poverty.”**
- ⇒ **The Vedics say “Self realisation is before god realisation.”**
- ⇒ **The Oracle of Delphi said “Know thyself!”**

# The Return To The Self

A man in a dark suit is walking away from the viewer on a stone path that leads into a misty, ethereal landscape. The path is made of several stone steps and is surrounded by a soft, hazy light. In the background, there is a faint silhouette of a tree on the left and a large, rounded rock formation on the right. The overall atmosphere is one of solitude and introspection.

The return to the Self is the end of all dependency (of all kinds), the ego must go along with the trappings and status artefacts of life.

☞ Nietzsche said: “The individual has always had to struggle to keep from being overwhelmed by the tribe. If you try it, you will often be lonely, and sometimes frightened. But no price is too high for the privilege of owning yourself.”

# The Calendar and Synchronicity with the Stars

➤ **November 2006 – Pluto alignment with the galactic centre** (the roach cleaner) 5th day (this planet shows the lies for what they are. It rules what is hidden. It exposes the truth for what it is. A time of awakening and cleaning.) Now people need to be prepared for the psychic/psychological change in people (do not be afraid of the darkness).

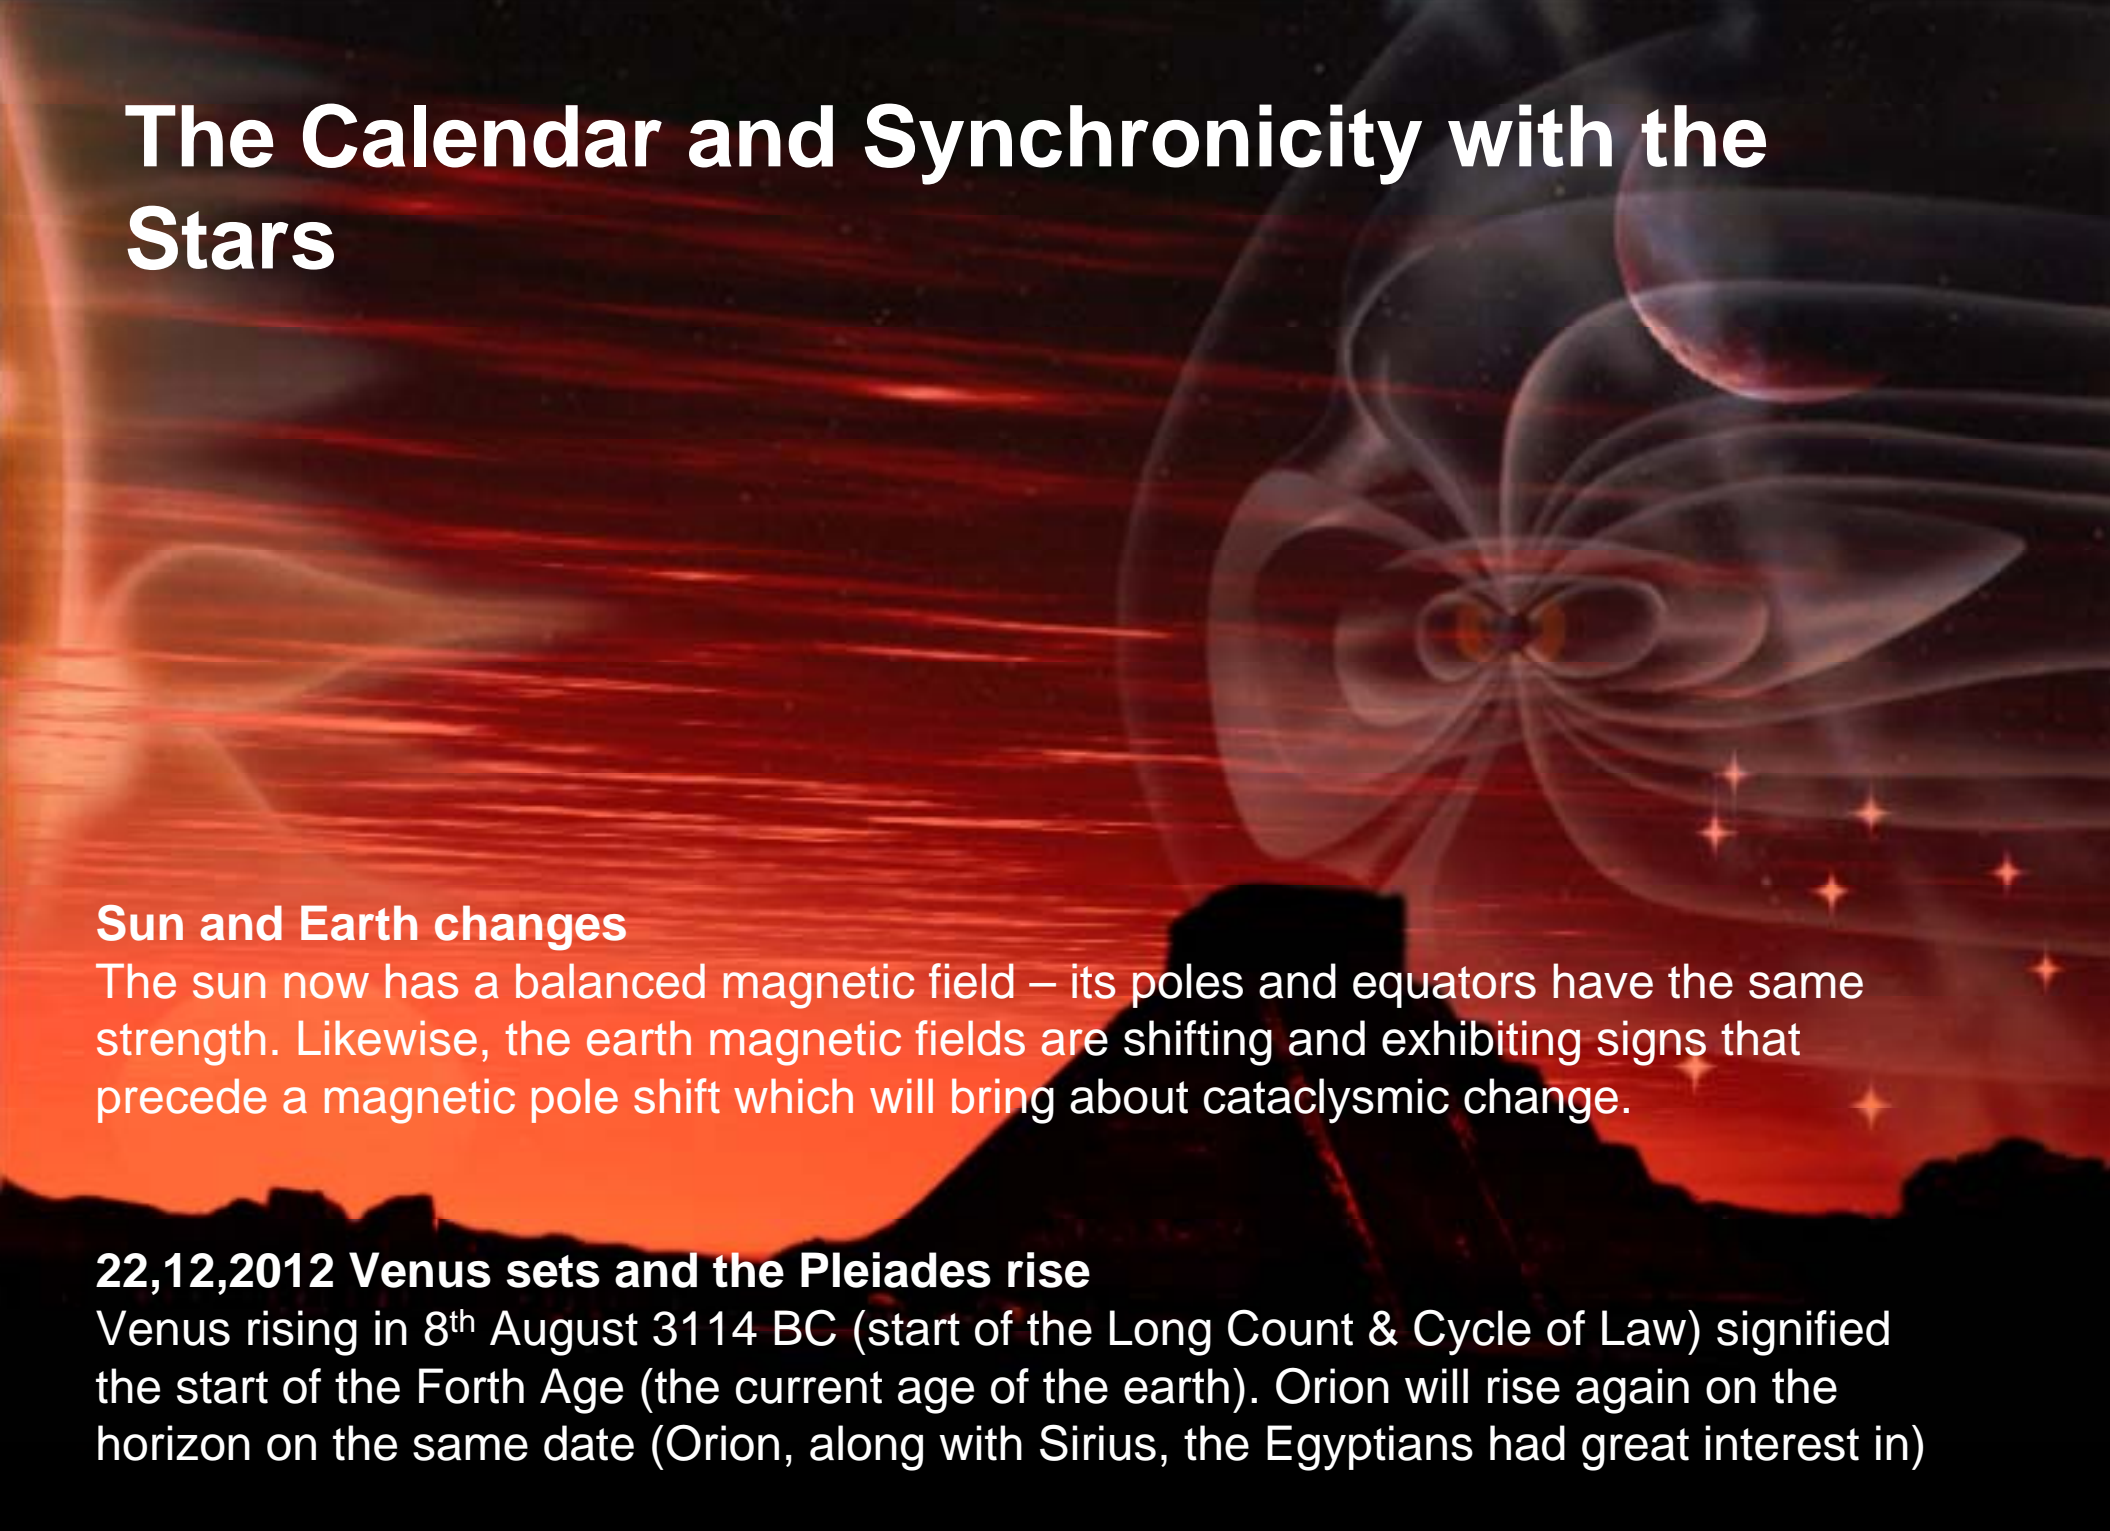

## ➤ **Age of Aquarius in 2012**

The birth of Aquarius was birthed in 1999. Each age lasts approximately 2100 years. Jesus said that when his age was up to look for the water bearer and follow him to his house...meaning house of Aquarius in the Zodiac. At the end of every astrological age there is tremendous upheaval in the world. Pisces is also the end of the Zodiac, the 12<sup>th</sup> house of the Zodiac.

## ➤ **Entering the galactic plane**

happens every 26000 years. It is a time for 2000 years and we will suffer the effects of the increased light, energy, vibration from the centre of the Milky Way, which could lead to cataclysmic changes, a sweeping away of the cobwebs, a new golden age, new species development, a time of great learning and conscious expansion.

# The Calendar and Synchronicity with the Stars

## Sun and Earth changes

The sun now has a balanced magnetic field – its poles and equators have the same strength. Likewise, the earth magnetic fields are shifting and exhibiting signs that precede a magnetic pole shift which will bring about cataclysmic change.

## 22,12,2012 Venus sets and the Pleiades rise

Venus rising in 8<sup>th</sup> August 3114 BC (start of the Long Count & Cycle of Law) signified the start of the Forth Age (the current age of the earth). Orion will rise again on the horizon on the same date (Orion, along with Sirius, the Egyptians had great interest in)

# Time and Its Changes

- **Terence McKenna – Timewave Zero**
  - theory says that time is split between 'novel' and 'mundane' time events.
  - time gets more 'novel' as it proceeds until everything becomes novel.
  - A complex computer analysis of the I Ching revealed a hierarchy of 26 timewaves, (each one 64 times larger than the one below), which govern the unfolding of events in the universe.
  - mathematical calculations ended the timewave 21,12,2012 for constant novel time (novel instead of mundane time) and this is end of the fifth world, end of the Mayan long count calendar.
- **David Sereda - Time waves are emitted by the brain**
  - in lower state of brain wave activity (theta and epsilon), time passes incredibly quickly and it slows down. Huge amounts of time pass quickly.
- **Greg Braden - Schumann resonance speeding up**
  - Schumann resonance is the energetic pulse of the earth which happens at the frequency of (7.4 Hz/sec).
  - All life on the planet measures the passage of time by it and interestingly our brains operate at a frequency of 7.4Hz.
  - This pulse has been measured to be speeding up and as it gets faster we perceive time to be getting faster.

# **What to look forward to**

- **Expanded consciousness**
- **Indigo/crystal children**
- **The return of the Christ/Quetzalcoatl**
- **Increasing oneness**
- **Realisation that nothing real exists**
- **We control our DNA**
- **Manifestation of our desires.**
- **Peace and bliss.**
- **Rediscovery of Knowledge - Understanding geometry and symbology**
- **Science, Quantum Physics and the Universe**
- **A redefinition of who we are**
- **We are beginning to become aware of our conscious co-creation**

## **Fear and Intuition for the Future**

If there is any fear or doubt - that is not your intuition.

Intuition is knowing.

There is no fear, Only certainty.

You know what to do without thinking.
