

Quick Write...

Take 15 minutes to read

- Essay 35 "Occam's Razor", "Taking Science on Faith", and "Surfing the Folds of Time"

Take 15 minutes to respond to the following...

- Analyze each essay separately. What does each essay say about the nature / purpose of science?
- Compare and Contrast these 3 essays (in what ways do they agree? in what ways do they disagree? in what ways are they asking different questions?)

Nov 30-12:17 PM

TEACHING THE NATURE OF SCIENCE:

Lederman (Unpublished Document)

- Tentative (subject to change)
- Empirically-based (based on or derived from observation of the natural world)
- Subjective
- Involves human inference, imagination, and creativity
- Socially and culturally embedded
