

Kagan West Proposed Widows & Orphan Community

Sewing

Gardening

Livestock

Model community would house 24 Kenyan Widows & Orphans

Widows and orphans huts

Assembly Hut

Widows and orphan Huts

The purpose of the community: Is to create a Godly atmosphere that would give the widows & orphans a place to live. This would be a Christian Community that strives to give the widows their dignity back by giving them the security of family and purpose. This community would educate the children as well as teach them skills such as farming, cooking, sewing to help them raise a family when they reach adulthood.

- This community would be required to be a witness for Jesus Christ
- They would strive to become self sufficient. This would happen by trading milk, eggs and clothing for what they require and do not have.
- The Bible would be their standard to live by.

Huts - Each hut would house 2 widows and 4 children
Four huts would have 8 widows and 16 children

Assembly Hut - Would be the place where the community eats together
Would be where the community studies the Bible & worship together
Would be where the children attend school
Would be where the clothes are made and the cooking is done.
