

The "Croc Wing 2000 Cloud Eater I" is an imaginary creature inspired by Noah's fascination with crocodiles, Godzilla, crayfish and Lego Dragons. The head is a crocodile with sharp pointy teeth. The torso is covered with bony plates similar to the original Godzilla. The crayfish claws were added because at the time of the drawing, Noah captured wild crayfish as part of a home science project. For food, the beast eats clouds by flying high into the sky inhaling its' meals like a vacuum. The head centered in the body is a projection of Noah's mind controlling ability taking over the creatures' every movement. (a paraphrased description given by Noah)
