Parking information

There are two parking lots adjacent to the building. The directions bring you into the lower parking lot, which is closest to Dr. Freeman's office. From the lower parking lot, you will need to go upstairs to the second level to get to suite 270. If stairs present a hardship for you, you can drive around the building to the upper parking lot; this parking lot is level with the 2nd floor, so that you will not have to climb stairs.
