

**Breaking the rules for a DOUBLE ON MOOSE** features slides and video, showing how two hunters successfully scored a rare double on Alaska-Yukon moose. The cost was in guts and determination. Hardship has its way of teaching us, and these two hunters learned some spiritual lessons alone in the wilderness. Get lots of tips for planning your own hunt!

**The MANY Joys of Turkey Hunting** is much more than a turkey hunting seminar. Featuring top quality photography, this presentation takes a look at wild turkeys and their behavior through the seasons, some new tips on strategy, techniques and calling, and the unusual things turkey hunters see. Learn how YOU can get more out of turkey hunting!

**COMING IN SPRING 2010**, a new presentation on whitetail deer.

*When presenting in churches*, Steve brings his programs to a fitting conclusion with a clear gospel testimony.
