Notes:

This schedule has three people designated for each trip. If you have free time and can volunteer as an extra crew member on other days you may do so.

If you cannot meet your schedule you are responsible for arranging a replacement and for notifying the Captain and/or crew of any changes.

- Capt The Captain provides and commands the boat.
- FM The First Mate obtains the ice chest from the Health Department, returns the chest with the samples to the Health Department by 1:00PM , and acts as either Sampler or Recorder.

Crew The Crew acts as Sampler or Recorder.

The boat leaves from the Captain's dock at 11:00AM.

Supplies will be kept in Myron's dock box.

Use the checklist to be sure that you have all of the supplies before leaving the dock.

Please return all items either to Myron's dock box or to his house.
