Zips	Built	Cinergy Field	6	2002	No	6	9	6	7	0	0	0	0	Y

Revised 5/19/2009

### Notes

- Per CBL rule VIII.A, managers may select an actual MLB park or build their own.
- Park Name** contains the MLB park name for *actual* parks. For *built* parks, it contains a manager created name (permission granted to have some fun with this one).
- SOM Park Number** is the SOM park id number. For *actual* parks it is the link to the MLB park single / HR values and park pictures. For *built* parks it provides just the link to the pictures.
- First Season Used** establishes the starting season for the mandatory 3 season retention period for any newly selected ball park (CBL rule VIII.B).
- Ball Park Move Announced** contains "No" for managers who have not announced an intent to move to a new ball park. For managers who have announced a move, it contains the season in which an announced change will be effective. Selection of a new permanent ball park must be made before opening day of the season before it will be used (CBL rule VIII.E).
- The **Change from Year** block contains any change in the single/HR values from the previous CBL season and an "ok" column indicated that such changes follow CBL rules. For *actual* parks the changes are informational only. For *built* parks: no single value can change by more than 2; no value can be reduced below 4; and, no value can be increased above 16. (CBL rules VIII.A and VIII.C).
